FIFA Connect, Teams and Digital ID

FIFA Connect is the online registration platform for players, referees and officials to obtain a permanent FIFA ID. Teams is the functionality to indicate for which team a

player is playing. Digital ID is the facility provided by FIFA Connect to provide proof that a player is registered and has been added to a team.

Football Competition Management System (FCMS)

FCMS is the online platform operated by the SFF to manage its competitions. Clubs and Match Officials contribute to the management of competitions and matches. They do so by performing specific actions, which are elaborated upon below.

Team Management

1. The club must add registered players and officials to the “Men's Senior Team” in FIFA Connect before adding the same players to the FCMS Players List. The Club must ensure the number of players listed at any one time under “Men's Senior Team” in FIFA Connect does not exceed the maximum number of players for the competition.
2. The club is responsible for ensuring players and officials listed in “Men's Senior Team” in FIFA Connect are the same players and officials listed in FCMS Players List. Any changes the club makes to players and officials in the “Men's Senior Team” in FIFA Connect, the club must make the same changes in the FCMS Players List.
3. Suppose procedures in (1) and (2) have not been applied, and a player or Official from the FCMS Match sheet does not have a digital ID for the "Men's Senior Team" during verification. In that case, the player will not be permitted to play or stay in the technical area, and the Official will not be allowed to remain in the technical area.
4. The maximum number of players per team specified in the relevant competition regulations must be respected.
5. The Club must input the jersey number and position of the player when adding to the FCMS Players List
6. If and when there are changes in the FCMS Players List, whether originating from changing player jersey numbers or changes in the “Men's Senior Team” from FIFA Connect, the Club must inform the Competition Department to approve the changes. The Competition Department reserves the right to reject the changes if the Club does not state clearly what is changing in the FCMS Players List (i.e. which players have been removed and which players have been added, and what jersey number is allocated to the new player). The preferred communication channels are WhatsApp and Email, followed by a phone call to an SFF Competition Department official. The Club's updated Players List must not exceed the maximum number of players for the competition.
7. SFF will submit, on behalf of the club, the registered kits as indicated in the photos in FIFA Connect.

Notes

Notes
An International Transfer-In is only considered and recognised when the player's (PLR) last previous registration was held in a different jurisdiction. The FIFA Member Association in the deifferent jurisdiction issues the ITC for the PLR to the Seychelles Football Federation when requested through the Transfer Matching System (TMS).
To initiate the process, the Registering Club (RC) must notify the Seychelles Football Federation (SFF) either via email or through the Transfer Matching System (TMS), after completing all local registration requirements.
The SFF TMS Officer will proceed to request the ITC only upon receiving the Clearance Certificate from the National Sports Council (NSC). When submitting the ITC request in TMS, the Officer must ensure that all required documents are uploaded in FIFA Connect.
The ITC must be obtained prior to the registration deadline (the current open registration window).
An ITC requested by the SFF from another Member Association—following a formal request submitted via email by one of its registered clubs—shall be considered valid for the club to submit the EF outside the designated registration period only if the ITC was received on the final day of the registration period and prior to its official closure. Request of a copy of an ITC already held by SFF shall not apply to the above. The Registration will be considered as Domestic Transfer In-Out and its rules & regulations applied.
RC and TRC should have discussed the proposed transfer prior to iniating the steps.
At each step, the authoritative entities may reject or deny approval and issuing of required documents. The RC cannot proceed until an appeal and subsequent approval is granted.
SFF recommends Physical Examinations be performed by the NSC's specialist doctors.
The FIFA Connect process must be completed in line with the "FIFA Connect Player Registration Guidelines" document.

All documents uploaded into FIFA Connect must be in line with the "FIFA Connect - Document Scanning Guidelines and Checklist" document.
All photos uploaded into FIFA Connect must be in line with the "FIFA Connect Photo Guidelines" document.
Transfer Registrations are approved not only on the authenticity of documents, but on the digital quality. Poor quality photos or low resolution scans may lead to delays in processing, ultimately to rejection of registrations.
A minor is a PLR who is under 18 at the end (close) of the registration period.
The minimum age for a player to be registered on FIFA Connect is 6 years old.
FIFA Connect begins tracking the player passport from the age of 12 upwards.
Minors are not issued with GOPs, but instead are covered by the parents/guardians GOP.
DIM will not issue more than 4 GOPs for foreign players per club. SFF will trust DIM's authority.
